## Deadbolt Selection

### Design Features

#### Stand-alone, without wireless home control

- Available in two styles: elegant acrylic touchscreen or durable push button
- Touchscreen and push button key pads are illuminated for convenient night time entry
- For use on all standard doors
- Certified ANSI/BHMA A156.36, Grade 2
- Deadbolt: Motorized tapered bolt helps align door during locking

#### As part of a wireless home control system

Yale Real Living touchscreen and push button locks work with a variety of wireless home control or home security systems. Owners experience a new type of 'real living', the lock becomes the first point of contact for security and home control on any door the lock is installed.

*Experience 'real living' possibilities –*  
Enter a user code to enable a welcome scene that disarms the security system, activates lights, and even adjust the thermostat. Know when family members or friends come and go and have the ability to remotely lock or unlock your doors. The lock ensures that your home is always secure. You're in control with Yale Real Living!

Available in Z-Wave or ZigBee configurations.

#### Custom Lock Manager

*The Yale Real Living Lock Manager makes everyday locking control simple. Customized screens vary based on your home control system.*

#### VIEW THE STATUS OF LOCKS

#### COMPLETE CONTROL OF USERS AT EACH DOOR

#### SET-UP EACH LOCK INDIVIDUALLY

#### KNOW WHAT HAPPENED AT YOUR DOOR

Home automation companies enable wireless connectivity between locks and other devices in the home.

Once connected, Yale locks enable a level of functionality, convenience, and control that no other single device can provide.
