

Versatile, Virtually Indestructible and Ready for the Extreme

Not just a camera enclosure but a engineered outdoor housing system that is designed to expand all indoor camera models into complete rugged outdoor system solutions.

Virtually Indestructible: We produce the worlds toughest enclosures, will not corrode, rust, leak and has proven to withstand a whole world of abuse.

No matter the climate we take outdoor temperature protection very serious: Extreme Hot climates, Cold climates, Marine and everywhere in between.

innovative

ST-BASE : Dotworkz S-Type Standard Camera Enclosure

IP67
OUTDOOR RATED

Description:

The S-Type outdoor camera protection system is designed for all brands of traditional "brick" or static cameras.

The S-Type housing utilizes all the features of our popular D-Series products into a complete air/water tight system solution for today's sensitive CCTV, megapixel, HDTV or other long body cameras with room for wireless radios, cellular routers, encoders and small form NVR devices.

The S-Type comes with all the dotworkz rugged environmental kits: COOLDOME™ cooling system for heat protection, Ring of Fire De-icing for cold weather, Tornado high flow fan system for humid marine locations and of course our Heater Blower

for general use outdoors.
