Serial Number: _____

Warnings

WARNING
RISK OF ELECTRIC SHOCK
DO NOT OPEN

To reduce the risk of electric shock do not remove cover (or back).
NO user serviceable parts inside. Refer servicing to qualified service personnel.

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of "dangerous voltage" within a product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Features

- **WDRV-7464M/8464M is specifically designed as an automotive all round vision system.**
 - Wide 7" / 8" TFT LCD Panel
 - Free Input Voltage (DC 12V~DC 32V)
 - NTSC/PAL Compatibility
 - 4 Camera Inputs & Audio/Video Input & Audio/Video Output
 - Multiple Display Mode (Single, Half, Quad)
 - Automatic Picture Display (5 Triggering Functions)
 - Auto Scanning Function
 - Dimmer Function
 - Built-in Speaker
 - OSD (On Screen Display)

Precautions

- **Warning**

To prevent fire or shock hazard, do not expose the set to rain or moisture. Do not rub or strike the Active Matrix LCD with anything hard as this may scratch, mar, or damage the Active Matrix LCD permanently.

- **Regulatory Information**

This equipment has been tested and is in compliance with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- **Do not remove the cover**

To reduce the risk of electric shock and maintain the quality of the product, please do not remove the cover.

Please follow the instructions of the wiring diagram in the Installation Guide.

- **Keep small articles out of the reach of children**

Store small articles (screws, etc.) in places not accessible to children.

If swallowed, consult physician immediately.

- **Stop using immediately if a problem appears**

When problems appear, stop using the system immediately and contact the dealer from whom you purchased the equipment. Some problems which may warrant immediate attention include a lack of sound, noxious smoke being emitted from the unit, or foreign objects dropped inside the unit.

- **Do not use this equipment outside the vehicle**

Do not use this equipment for purposes other than those listed for the vehicle.

Failure to do so may result in an electric shock or an injury.

- **Stop the vehicle before carrying out any operation that could interfere with your driving**

If the operation of the unit (such as turning on or turning off the monitor, etc.)

interferes with your driving, stop the vehicle in a safe location before attempting operation.

- **Temperature**

Before turning your unit on, be sure the temperature inside the vehicle is between -20°C and $+80^{\circ}\text{C}$.

- **Maintenance**

If you have problems, do not attempt to repair the unit by yourself. Return it to your purchasing dealer.

- **Caution**

Do not attempt to modify this product in any way without written authorization. Unauthorized modification could void the user's authority to operate this product.

- **Power**

This set operates on DC power. The voltage is as indicated on the label on the back cover. Never apply AC power to the set directly. Do not allow anything to rest upon or roll over the power cord, and do not place the set where the power cord is subject to damage.

- **Service**

Never remove the back cover of the monitor, this can expose you to high voltage and other hazards. If the monitor does not operate properly, unplug it and call your dealer.

- **Location**

Position your monitor so that no bright light or sunlight will shine directly on the screen. Make sure that the monitor is placed in a position that allows a free flow of air. Do not cover the ventilation openings on the back cover.

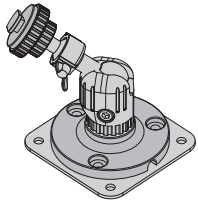

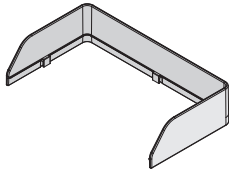

- **Cleaning**

Unplug the monitor before cleaning the face of the LCD Screen. Dust the monitor by wiping the screen and cabinet with a soft, clean cloth. If the screen requires additional cleaning, use a clean damp cloth. Do not use liquid or aerosol cleaners.
