

Easy Updater for the GC2 Panel

SKU: 2GIG-UPDV
UPC: 8-17082-01137-0

We are pleased to announce the availability of the new Easy Updater for GC2 and TS1. Now you can quickly and easily update a GC2 panel or TS1 keypad without using a computer or incurring the OTA update charges from your backend service provider. The compact design of the Easy Updater fits in a technician’s toolbox and ships with firmware already installed for instant use right out of the box. It is ideal for a tech who is updating a system from a 2G radio on previously installed panels. Just update the panel using the Easy Updater and replace the old radio.

KIT INCLUDES:

- Easy Updater for GC2 (English firmware preloaded)[1]
- 4-Pin Adapter for early TS1 production model

FEATURES

- No batteries required, powered by the panel
- 4-Position LED Display for easy status updates
- Micro USB Socket for firmware upgradeability
- Start button to initiate the GC2 or TS1 firmware upgrade
