

AB731A / AB731A-F 1-Call Stainless Steel Remote Stations (PRO700 Series)

Model **AB731A** Shown

Architects' And Engineers' Specifications

The **PRO700** remote station(s) shall be Alpha Communications® / Ring model **AB731A** (surface) or **AB731A-F** (flush) or approved equivalent. Remote(s) shall have clear two-way communications. Stations are made of stainless steel with a 1.5 mm thick front plate. Remote is a tamper-resistant unit, designed to protect the push-button, microphone and loudspeaker. Remote features call button, loudspeaker, and microphone.

The **AB731A-F** is for flush mounting and comes with a light duty backbox for EMC protection. Remotes are easy to install, and shall require simple loop wiring. By installing the optional Sound Detection Module (model **DP996**), a call can be initiated automatically when a certain preset sound level is reached.

Contractor shall observe all local and national electrical and building codes.

AB731A and AB731A-F Tamper-Resistant Outdoor Remote Stations

These **PRO700** remote stations are compact, dust resistant, and feature robust construction. The stations are made in stainless steel with a 1.5 mm thick front-plate. The construction insures optimal protection of the push-button, microphone and loudspeaker. The stations are ideally suited for applications in correctional institutions, prisons, police stations, parking garages, subway stations, and other hi-abuse locations.

The **AB731A-F** is for flush mounting and comes with a light duty backbox for EMC protection. When an optional backbox is needed for concrete mounting, the model **BBF731** must be ordered.

Model **AB731A-F** Shown

The station has an internal loudspeaker with a 3 Watt amplifier. An optional external speaker can easily be connected. The stations are equipped with a call button for establishing connection with extension number 13. The same call button may optionally be used for door bell function.

Features

- Clear two-way communications
- Built-in Speaker and Microphone
- Stainless Steel Faceplate
- Hands-Free Reply
- Tamper-Resistant Call button
- Easy installation
- Simple loop wiring
- Flush or Surface Models Available
