

## HT2006 Series Handsets - Common Talk - Selective Ring

### Architects' And Engineers' Specifications

The handset station(s) shall be Alpha Communications®/S.T.R.™ HT2006/5 (5-button) or HT2006/10 (10-button), in (White, Grey, Ivory, or Brown) color. Handset(s) shall be mounted (surface, flush or desktop). Handset(s) shall feature electret condenser microphone for exceptional voice fidelity. Handsets that include carbon transmitter or other voice technologies shall not be acceptable. Handset shall have a textured finish and heavy-duty coiled cord. Handset(s) shall include a built-in button call directory. Push buttons shall be clearly visible and shall be marked in a different color. Handset(s) shall include an adjustable volume AC buzzer (for handset to handset signaling). Handsets that can be signaled from one or more door speakers shall include a model# R2006 AlphaTone™ chime adapter. Contractor shall observe all local and national electrical codes.

### HT2006 Series Handsets

The Alpha Communications® / S.T.R.™ HT2006 Series handsets are designed to work as a home or office type handset intercom station or with or without paging capabilities for industrial and commercial applications.

Choose from White, Grey, Ivory or Brown in either a 5-button (HT2006/5) or 10-button (HT2006/10) version.

These attractive handsets easily surface mount right on the wall or over a single gang flush electrical back box (or plaster ring). Handsets can be changed to desk mount with the addition of a model TZ1006 series desk adapter, or can be flush mounted with the addition of a Model UM1004 flush housing/trim assembly.

All HT2006 series handsets feature textured finish (to minimize scratches and fingerprints), electric buzzer signaling (adjustable), heavy duty coiled cord with strain relief and five (5) or ten (10) momentary button switches. These switches can be used for calling from handset to handset, door release, paging or other signalling functions, depending upon system configuration.

Signalling from a door speaker to the HT2006 handsets is accomplished with the addition of a low-cost Model R2006 AlphaTone™ chime adapter.

### Features

- Convenient Full Duplex Voice Operation
- Easy Installation
- Eavesdrop Privacy
- Clear Voice Fidelity using Electret Condenser Microphones
- Rugged and Reliable. Simple to Operate
- Available in 5 or 10 button configurations
- Mounts Surface (standard) or Flush or Desk (with appropriate adapter)
