

UMF1000 QwikBUS™ Intercom Flush Housing

UMF1000 Flush Housing

HWB Installation Screws and Mounting Brackets

UMF1000 QwikBUS™ Intercom Flush Housing

The Alpha Communications® / S.T.R.™ UMF1000 Flush Intercom Housings are designed to be used with the FS1000 series, FSE1000 series, FS1500 series, FSE1500 series, and FSV1000 series QwikBUS™ intercom stations, to allow the stations to be mounted flush into the finished wall.

These plastic housings are used in conjunction with the model HWB mounting screws and brackets, typically for a sheet-rock or gypsum type wall. Depending on the mounting location, these flush housings may also be fastened directly to a wooden or metallic wall stud.

Features

- Made from high-impact ABS plastic
- Can work with a variety of QwikBUS™ Intercom Stations

Specifications

Dimensions:

The UMF1000 flush housings are 3.25"W (83mm) x 5.375"H (137mm) x 1.80"D (46mm).

Architects' And Engineers' Specifications

The Flush Intercom Housings shall be Alpha Communications® / S.T.R.™ model UMF1000 or exact equal. The Flush Intercom Housings are designed to be used with the FS1000 series, FSE1000 series, FS1500 series, FSE1500 series, and FSV1000 series QwikBUS™ intercom stations, to allow the stations to be mounted flush into the finished wall. The UMF1000 shall be made from high-impact ABS plastic.

Contractor shall also furnish and install the model HWB mounting screws and brackets, typically for a sheet-rock or gypsum type wall. Depending on the mounting location, these flush housings may also be fastened directly to a wooden or metallic wall stud, as directed by the Architect.

Contractor shall observe all local and national electrical and building codes.
