

VH40 Series Handset Type QwikBUS™ Video-Intercom Stations

VH40W (White Finish shown)

Choose from three (3) color combinations

White is standard - others extra cost

VH40 Series Handset Type QwikBUS™ Video-Intercom Stations

The Alpha Communications® / S.T.R.™ VH40 QwikBUS™ Series stations are designed to work as an apartment type open voice video-intercom station, using a minimal of wiring. All VH40 stations in a building can be wired on only two (2) common (loop) wires! The QwikBUS™ system can support hundreds of VH40 stations on a single system. Choose from White and two (2) other decorator inspired finishes.

These attractive and trim stations easily surface mount right on the finished wall. Stations can be changed to desk mount with the addition of a model TZ-VFS (White) desk adapter.

All VH40 series QwikBUS™ stations selectable electronic tone signaling, Voice On, Door Release, and Call Volume, as well as a crystal glass protective screen cover to allow for quick and easy cleaning.

These switches can be used for door release, or other signaling functions, depending upon system configuration. All VH40 series QwikBUS™ stations can be inter-mixed with the VHC3033 and/or VFS1000 series QwikBUS™ video-intercom monitors.

Features

- 4.3" (diagonal) flat high-resolution color video screen
