

VKGB2-V7/xAF GB2 Series Video-Intercom Kits W/Flush Entry Panel

Each VKGB2-V7/xAF Kit Consists Of:

	
<p>VESTA7 GB2 Surface Mount 7.0" Indoor Video-Intercom Monitors (qty. of 1 to 10 depending upon kit selected)</p>	<p>D2L-GB2 2-way video bus splitters (qty. of 0 to 5 depending upon kit selected)</p>
	
<p>(1) Aluminum NEXA Door Station (supplied with FLUSH back back box), with 1 to 10 push-buttons. 1-Button model shown</p>	<p>(1) Aluminum NEXA Door Station (supplied with FLUSH back back box), with 1 to 10 push-buttons. 10-Button model shown</p>
	
<p>(1) EL632/GB2A Camera and Speaker/Mic. Module (installed into the NEXA panel)</p>	<p>(1) Flush plastic back box for the NEXA panel (model# NCEV-90CS shown)</p>
	
<p>(1) FA-GB2/A System Power Supply/Amplifier</p>	<p>(1) EL610D Pushbutton Module (in kits with 3-10 pushbuttons)</p>

Door Strike Power Notes

The EL632/GB2A Camera/Speaker/Microphone module provides 12VDC power for a 12VDC door strike. If another voltage door strike is used, the installer must provide a separate low-voltage door strike power supply (for each entrance panel).

VKGB2-V7/xAF GB2 Series Video-Intercom Kits

The Alpha Communications® VKGB2-V7/xAF GB2 series video-intercom kits feature our least expensive 7.0" monitor multi-unit video-intercom system and configurations, for buildings with 1 through 10 apartments, at a price that can't be beat! The 'x' in the model number indicates the kit size (1-10 apartments). Each kit contains 1- VESTA7 GB2 surface mount 7.0" screen soft-touch color video-intercom monitor station (for each apartment) with corresponding number of D2L-GB2 video splitters required, 1- FA-GB2/A system power supply and 1- NEXA series Aluminum finish flush entry video door station/panel (with 1-10 push-buttons) and the required EL632/GB2A color camera/sound module. Kits with 3 to 10 pushbuttons on the door panel also include the required EL610D pushbutton module.

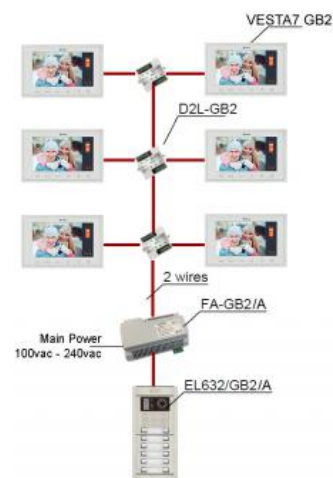

Just add an electric door strike and 2-conductor wire, to complete your building security system. We know of no other system that can offer all of these features at this cost.

Other voltage door strikes and mag locks can be used with this system, with the addition of the PK407A auxiliary relay unit and additional door strike power supply. Please contact us for more information.

Features

- Simple 2-conductor wiring
- Panels come assembled and pre-programmed
- All Monitors come pre-programmed
- Built-in electronic call signal to each indoor station (adjustable)
