

PCAM/LCC IP Color Camera Unit

Architects' And Engineers' Specifications

The IP Plus Color Camera(s) shall be Alpha Communications® / Beoview model **PCAM/LCC** or approved equivalent. The IP Plus Camera shall be mounted using the optional **BW-14** swivel mounting bracket. A plug-in RJ45 connector shall be supplied for connection to a PoE switch. Camera shall be constructed of Anodized Aluminum, in Black color, and shall have a resolution of 600 x 640 pixels.

Contractor shall observe all local and national electrical and building codes.

Check with applicable authorities regarding local and/or federal laws as they apply to party consent and video and/or audio recording.

PCAM/LCC IP Color Camera Unit

The Alpha Communications® **PCAM/LCC** is a camera specially designed to be installed in a lobby, elevator or common areas, so that the residents can track it from their IP Plus apartment monitor(s). It can be linked to the **BEOVIEW7-PORTER** Concierge/Security Guard/Porter station(s) so that when an apartment is called from the Concierge, the resident can see who is coming to visit them from their IP Plus apartment monitor, while in communication with the concierge.

Thanks to its technology, and Peer2Peer facilities the **PCAM/LCC** does not require any server on the installation. Its protocol of communications is TCP/IP which makes it possible to be connected to a LAN together with other IP devices in the same installation. The system never becomes busy thanks to the multi-channel feature.

Features

- RJ45 Connector for fast and secure installation
- Standard Ethernet LAN, PoE 802.3AF
- No server required
- Optional model# **BW-14** Swivel Bracket

Specifications

Resolution:	600 x 640 pixels
Power Consumption:	2W fully activated
Humidity:	10% - 90% non condensing
Voltage:	48VDC. PoE 802.3AF
Construction:	Anodized Aluminum, Black Color
Dimensions:	4.02"h x 5.51"w x 0.52"d (103mm x 140mm x 14mm)
Operating Temperature:	-10°C to to 70°C (14°F to 158°F)
