

7111 / 7113 Door Contact Switches (Golmar)

7111: 2-Pin Door Contact Switch

7113: 3-Pin Door Contact Switch

7111 (2-Pin) and 7113 (3-Pin) Door Contact Switch

The Alpha Communications® / Golmar 7111 and 7113 door contact switch units are typically installed into a door frame to allow electrical current to flow thru to an electric door strike (or equivalent unit), without the need for exposed door loops.

The model 7111 features 2 heavy duty plated spring contacts and the 7113 features 3 heavy plated duty spring contacts to assure positive electrical connections.

Features

- Compact design mounts flush into door and door frame
- Positive screw terminal connectors
- Works with a variety of electric door strikes
- Choose from 2-pin (7111) or 3-pin (7113) models
- Heavy duty plates spring contacts
