

BACKUP CAMERA SYSTEM WITH BUILT - IN SENSORS RVS - 5350

REAR VIEW
SAFETY
REVERSE WITH CONFIDENCE™

With sensors built right into the backup camera, this system offers enhanced safety by displaying the view behind your vehicle and warning you audibly about objects in your path. Its 120° viewing angle provides a wide rear view and displays this view on the 4.3" TFT LCD monitor. The backup camera has excellent night vision, is completely waterproof with an IP68 rating. The system comes with a one year warranty.
