

Hidden Dash Camera with WiFi

RVS-880C

The RVS-880C really can do it all! This full HD dash camera can be connected to an external monitor via RCA or to a mobile DVR. Full HD video quality catches detailed footage of driving and never misses a moment of what is going on in and around your vehicle. Built-in Wi-Fi allows you to view and download footage from the dash camera via the free FinalCam App on your smartphone or tablet (Android/iOS). The RVS-880C features a simple installation with the included mounting pad and can also be installed with screws. Please Note: Because of the mounting location, this dash camera will only work on vehicles with traditional rear view monitors.

FINAL CAM APP

Apple: search "FinalCam™" in the App Store.
Android: search "FinalCam" in the Google Play store.

You can also scan the QR codes below

Pro Tip: You don't need a pre-existing WiFi or internet connection for this to work. The transmitter creates a WiFi network that will work anywhere.

Android

Apple
