

7" Digital Color Monitor With MirrorLink

RVS-ML7

REAR VIEW
SAFETY
A Safe Fleet Brand

This monitor has it all! The RVS-ML7 is a 7" monitor featuring the latest screen technology. The mirrorlink feature enables you to view your mobile phone on your monitor through WiFi and standard programs like DLNA, Miracast and Air Play. Navigate your trip, select and listen to music, or play games on your monitor, all with your cell phone! 2 camera inputs allow you to attach both a side camera and backup camera to this monitor.

The RVS-ML7 also features a USB input so you can charge your mobile device and a removable sunshade. Easily switch between both full camera displays and a full mirrorlink display. Your backup camera can be installed to automatically display when your vehicle is put into reverse. The RVS-ML7 is a superior monitor, a high quality screen for backup and side cameras, and a large display you control with your cell phone. **Note:** You don't need a pre-existing WiFi or internet connection for mirrorlink to work. The monitor creates a mirrorlink WiFi network.
