Overview

Legend IP from GE Security is the newest addition to our industry-leading integrated dome camera line, adding full frame rate streaming video to the already feature-packed product. Legend IP is fully compatible with the SymSuite family of IP-based products from GE Security.

SilkTrak™ direct drive eliminates gears and belts for improved performance and reliability. The closed-loop positioning technology provides preset positioning accuracy of ±0.015 degrees.

Legend IP provides a built-in MPEG-4 video encoder that provides D1 resolution at a full 30 frames per second over a 10/100BASE-T Ethernet network. The encoder also provides a data channel that allows control and programming of the dome over the network connection. Legend IP has a built-in web page that allows you to connect, view and control the dome using any PC with Microsoft Internet Explorer installed that has access to the same network. Legend IP is fully compatible with our other SymSuite products, including SymSecure, SymNav, SymDec and SymNet allowing it to be a drop-in addition to an existing IP video system.

A choice of 36x or 26x optical zoom camera with 12x digital zoom gives this new dome 432x or 312x total zoom. Optically superior injection-molded dome bubbles insure crystal clear images, even at the highest zoom magnifications.

With 184-degree tilt travel for above-horizon viewing and electronic image flip, the camera can track activity directly underneath it without having to spin on its pan axis. Each of the 127 preset positions stores the pan, tilt, and zoom position along with a complete list of camera settings including backlight compensation, iris, and shutter settings.

Sixteen shadow tours can store a total of 20 minutes of pan, tilt, and zoom operation. Program up to 32 macros, each with up to 16 steps that can be set for presets, tours, relay outputs, or links to other macros. Eight alarm inputs can be assigned to presets, tours, or macros and can control either or both relay outputs.

Of the 24 available privacy masks, eight can be displayed simultaneously, allowing portions of an image to be covered. This prevents operators from looking into neighboring or sensitive areas. Spherical privacy masking uses a 3D representation of the camera view and eliminates mask drift caused by camera tilt angle.

Standard Features

- SilkTrak™ direct drive for smooth and precise PTZ movement
- Comprehensive programming choices via graphical menus provide flexibility for all applications
- Advanced MPEG-4 compression allows full D1 resolution at 30 frames per second
- Selectable streaming video resolution of D1, 2CIF, or CIF
- Video streaming with UDP support
- Remote configuration over Ethernet
- Video quality settings of standard, medium and high
- Alarm reporting over Ethernet
- Email notification on alarms
- Spherical privacy masking
- Single hand insertion and removal

Legend IP
next-generation network
PTZ dome cameras
General Specifications

- Drive type: SilkTrak™ Direct Drive
- Pan travel: 360° continuous
- Manual pan speed: 0.01 to 120°/sec
- Max. pan/tilt speed: 400°/sec
- Presets: 127 with title
- Shadow tours: 16 with 20 min. total duration
- Macros: 32 with 16 steps each
- Alarm inputs: 8 (NO/NC programmable)
- Outputs: 2 Form C relays, 0.5 A @ 30 VDC
- Protocols: GE RS-422, GE Impac RS-485, GE ASCII RS-422, Pelco P & D RS-422, Honeywell Ultrak RS-422, Tyco AD RS-422
- Operating temperature, without heater/blower: 32 to 122°F (0 to 50°C)
- Operating temperature, with heater/blower: -40 to 122°F (-40 to 50°C)

Video Encoder

- Colors: Y:U:V 4:2:2; 16.8 million colors
- Grayscale: 256 levels
- Horizontal resolution: 720 pixels
- Vertical resolution: 484 lines
- Digital resolution: D1: 720 x 576/720 x 480, CIF: 704 x 288/704 x 240, CIF: 352 x 288/352 x 240
- Digital frame rate: Up to 30 [25] frames/sec @ 720 x 480 (720 x 586) resolution
- Video compression standard: MPEG-4

Network Interface

- 10/100BASE-T Ethernet
- TCP/IP, UDP/IP, DHCP, Multicast, Data Throttle, Heartbeat

Flush mount ceiling and plenum-rated flush mount

The indoor flush-mount housing is designed for in-ceiling applications. A T-bar support kit is included. A flush-mount housing for plenum-rated applications is also available.

**Electrical**
- Operating voltage: 24 VAC +/- 4 VAC
- Power: 30 W startup, 24 W running

**Mechanical**
- Environmental enclosure: Rated IP50
- Dimensions: 9.5 in. dia. x 9.6 in. high (241 x 243 mm)
- Weight (housing, PTZ): 6 lb, 8.5 oz (2.96 kg)
- Construction: Gray ABS plastic

Pendant mount and pendant mount w/ heater & fan

The weatherproof pendant-mount housing can be used for indoor or outdoor applications. Both the pendant mount and pendant mount with heater and fan are rated IP66. With the heater/fan option, the housing can be used in temperatures to -40°F (-40°C).

**Electrical**
- Operating voltage: 24 VAC +/- 4 VAC
- Power: 30 W startup, 24 W running
- Power, with heater: 60 W startup, 44 W running

**Mechanical**
- Environmental enclosure: Rated IP66
- Dimensions: 9.5 in. x 11.9 in. high (241 x 303 mm)
- Weight (housing, htr/fan, PTZ): 6 lb, 8.5 oz (2.96 kg)
- Construction: Gray ABS plastic

Wall mount and wall mount w/ heater & fan

The weatherproof wall-mount housing can be used for indoor or outdoor applications. The wall arm is constructed of cast aluminum. Both the wall mount and wall mount with heater and fan are rated IP66. With the heater/fan option, the housing can be used in temperatures to -40°F (-40°C).

**Electrical**
- Operating voltage: 24 VAC +/- 4 VAC
- Power: 30 W startup, 24 W running
- Power, with heater: 60 W startup, 44 W running

**Mechanical**
- Environmental enclosure: Rated IP66
- Dimensions: 9.5 in. x 11.1 in. high (241 x 283 mm)
- Weight (housing, htr/fan, PTZ): 13 lb, 8 oz (6.12 kg)
- Construction: Cast aluminum

Heavy duty and heavy duty w/ heater & fan

The weatherproof heavy duty housing is designed to hold up under tough outdoor use. Both the heavy duty and heavy duty with heater and fan come with adjustable wall mount brackets. With the heater/fan option, the housing can be used in temperatures to -13°F (-25°C).

**Electrical**
- Operating voltage: 24 VAC +/- 4 VAC
- Power: 30 W startup, 24 W running
- Power, with heater: 100 W startup, 74 W running

**Mechanical**
- Dimensions: 10.56 in. wide x 9.29 in. high (268 x 236 mm)
- Weight (housing, htr/fan, PTZ): 13 lb, 8 oz (6.12 kg)
- Construction: Cast aluminum

Rugged pendant and rugged pendant w/ heater & fan

The weatherproof rugged pendant housing is for outdoor applications that require tamper resistance. Both the rugged pendant and rugged pendant with heater and fan are rated IP66. With the heater/fan option, the housing can be used in temperatures to -40°F (-40°C).

**Electrical**
- Operating voltage: 24 VAC +/- 4 VAC
- Power: 30 W startup, 24 W running
- Power, with heater: 100 W startup, 74 W running

**Mechanical**
- Environmental enclosure: Rated IP66
- Dimensions: 9.5 in. dia. x 11.1 in. high (241 x 283 mm)
- Weight (housing, heater/fan, and PTZ): 12 lb, 8.5 oz (5.68 kg)
- Construction: Cast aluminum

Ordering Information

First, choose the Legend housing, bubble, and camera that you want.

- **Housing**
  - F: Flush mount
  - FP: Plenum rated flush mount
  - H: Pendant mount
  - HE: Pendant mount with heater and fan
  - C: Wall mount
  - CE: Wall mount with heater and fan
  - D: Heavy duty
  - DE: Heavy duty with heater and fan
  - R: Rugged pendant
  - RE: Rugged pendant with heater and fan

- **Dome Bubble**
  - 3: Clear acrylic
  - 4: Smoke acrylic
  - 6: Chrome mirrored acrylic
  - 7: Gold mirrored acrylic
  - 8: Clear polycarbonate
  - 9: Smoke polycarbonate

- **PTZ Camera Assembly**
  - D26N: 26X day/night camera, NTSC
  - D26P: 26X day/night camera, PAL
  - D26SN: 26X day/night camera with image stabilization, NTSC
  - D26SP: 26X day/night camera with image stabilization, PAL
  - D36N: 36X day/night camera, NTSC
  - D36P: 36X day/night camera, PAL

Then, choose mounting accessories from the list below.

- **GEA-102**
  - Cast-aluminum wall-mount arm
  - Weight: 2.0 lb. (0.91 kg)
  - Material: Aluminum
  - Finish: Gray powder coat

- **GEA-104**
  - Parapet swing-arm mount
  - Weight: 7.75 lb. (3.52 kg)
  - Material: Aluminum
  - Finish: Gray powder coat

- **GEA-105**
  - Corner-mount adapter
  - Weight: 1.9 lb. (0.86 kg)
  - Material: Aluminum
  - Finish: Gray powder coat

- **GEA-106**
  - Pole-mount adapter
  - Weight: 14.4 oz. (408 g)
  - Material: Aluminum
  - Finish: Gray powder coat

- **GEA-107**
  - Roof-mount adapter
  - Weight: 1.2 lb. (0.54 kg)
  - Material: Aluminum
  - Finish: Gray powder coat

- **IDH-5200**
  - Sun-shield for standard and rugged housings
  - Dimensions: 10.75 in. (273 mm) x 7.51 in. (191 mm)
  - Material: ABS plastic
  - Finish: Gray powder coat

- **GEA-113**
  - Ceiling panel
  - Weight: 3.2 oz. (91 g)
  - Material: Steel
  - Finish: White enamel

- **GEA-114**
  - T-bar support kit
  - Weight: 6.4 oz. (181 g)
  - Material: Steel
  - Finish: Galvanized

- **Parapet-capping brackets**
  - Material: 0.25 in. aluminum
  - Finish: Gray powder coat

- **GEA-108**
  - Corner, narrow
  - 6 to 12 in. (152 to 305 mm)
  - Weight: 7 lb. (3.18 kg)

- **GEA-109**
  - Corner, wide
  - 12 to 17 in. (305 to 432 mm)
  - Weight: 8 lb. (3.63 kg)

- **GEA-110**
  - Straight, narrow
  - 6 to 12 in. (152 to 305 mm)
  - Weight: 14 lb. (6.4 kg)

- **GEA-111**
  - Straight, wide
  - 12 to 17 in. (305 to 432 mm)
  - Weight: 15 lb. (6.8 kg)
