

SAMSUNG TECHWIN

Samsung Lens

Installation Guide

SLA-M-M21D

The Samsung logo is centered in the lower half of the page. It is set against a dark background with intricate, glowing white and grey abstract patterns that resemble light trails or lens flares. The word "SAMSUNG" is written in its characteristic bold, sans-serif font, with a slight 3D effect and a dark shadow behind the letters.

Thank you very much for purchasing our Cameras and Lenses.

Please follow the procedures outlined in this guide for changing out the lens on the SNV-6012M and SNV-6013 cameras.

The procedure will be different for each camera.

Please take care not to touch the glass parts on the lenses after removing the protective coverings.

The package will include the actual lens and a Nylon ring shown above.

SNV-6013 Lens Installation

To install the lens on to the SNV-6013 camera, please open the camera.

Now remove the installed lens by turning it counter clockwise. Please hold the camera module with your other hand.

Please take care not to lose the spring-washer included with the original lens.

SNV-6013 Lens Installation

Take the new optional lens and insert the Nylon washer and spring washer, mount it to the camera as in the picture below.

Take care not to damage the threads or cross thread the lens.

SNV-6013 Lens Installation

Turn the lens until the spring washer starts to compress some pressure is felt.

Now power up and focus the camera by moving the lens until the picture is in focus.

You are now ready to mount and close up the camera.

Thank you very much for purchasing our Cameras and Lenses.

Please follow the procedures outlined in this guide for changing out the lens on the SNV-6012M and SNV-6013 cameras.

The procedure will be different for each camera.

Please take care not to touch the glass parts on the lenses after removing the protective coverings.

For the SNV-6012M, when removing the included lens, you will find the lens has a black metal washer and a spring-washer. Take care not to misplace the washers as you will need them for the new lens installation.

Utilize the same two washers in the same order to mount the lens. *(The Nylon washer included with the new lens will not be needed for the SNV-6012M)*

SNV-6012M Lens Installation

Install the lens in to the camera.

Turn the lens until some pressure is felt, Now power up and focus the camera by moving the lens until the picture is in focus.

You are now ready to mount and close up the camera.
