

900MHz

RUB-903RPS

Manufactured from the highest quality materials to ensure superior electrical performance, mechanical durability and longevity from the harsh elements of weather. Meet your application demands by choosing this antenna to increase your signal strength and improve video quality.

ADVANTAGES

- Knuckle Type Rubber Duck
- Low Profile Design
- All-Weather construction
- Two Year Limited Warranty

SPECIFICATIONS

OPERATING FREQUENCY	902MHz – 928MHz
ANTENNA GAIN	3 dBi
VSWR (RETURN LOSS)	<1.5:1
POLARIZATION	Vertical - Linear
H-PLANE BEAMWIDTH	360 Degrees
IMPEDANCE	50 Ohms
ANTENNA INPUT CONNECTOR	Reverse Polarity SMA
CONSTRUCTION	All Weather UV Protected
DIMENSIONS	6" x 1"
WEIGHT	22g or 0.7 oz

Omni-Directional
