

Surface Mount Backup Camera with Infra-Red Illuminators

RVS-MV3-IR

This compact backup camera easily mounts at the back of the vehicle and captures a wide 170° viewing angle. Four infra-red lights provide clear and stunning daytime and nighttime video even from 30 ft.

Constant sharp video is provided by the camera's image sensor that provides 620 TV lines. The heavy duty IP68 rating means the camera is waterproof and will operate reliably in the toughest of weather conditions.
